## GREETINGS

Greetings to each of my Friends, Old and New. May our pleasant relations continue in the future as in the past. We are always ready to do our part and you will always find us coming more than half way.

Summer has passed, sometimes a little too hot and a little too dry, but something grand and glorious which usually leaves a lot of pleasant memories. If it has not been a normal season we have a right to expect one next year. Normal is average and the bad season is the exception. A good season is a never to be forgotten pleasure.

We now have a brand new season coming on—Fall, with the lawns still green, but the leaves turning from green to red, yellow, gold, and brown. It is time to take up our bulbs and tender plants before winter and to make plans for the next growing season, plans for a bigger and better garden.

We are now harvesting our crop of bulbs. We have an excellent crop this season because of rich, sandy soil, a good spring for planting, and plenty of water with an irrigation system which covered our entire garden of 20 acres. Our water supply is inexhaustible and hence our crop of bulbs is extremely fine. The bulbs are young, high crowned and a pleasure to see. They are now ready to go out and produce for you those grand tall spikes that are such a satisfaction to grow. Let them show you what they can do.

Roger Babson says business passed the normal line on September 19, and we are now definitely in the prosperity zone, with better times just ahead. (It is nice to read this kind of news, is it not?)

## FOREWORD

We are offering the most outstanding of the new originations and the best of the standard commercial varieties. Our list is carefully selected from 600 varieties we grew this season.

“Beautiful Ohio”, our 1935 introduction is worthy of your growing. It was awarded seven Blue Ribbons at four different shows this season. This is the first season it has ever been exhibited. (Described on Page 1.)

“Golden Lancer”, our 1936 introduction, is a large yellow which we believe will take its place among the outstanding varieties. (Page 1.)

The quality of our bulbs this season we believe to be of the very highest. The same quality of bulbs is used in filling all orders whether from Retail or Prepaid List, (Pages 3 to 11 inclusive); Wholesale List (Pages 14, 15, 16); or Rare Bulbs and Bulblets (Pages 12, 13, and 14).

“Coupons”. Do not overlook the advantage of these Coupons in making up your Fall orders. They save YOU money. (Find the Coupons on back Cover page.)

Note the addition to our Awards under “Achievement” inside of back cover for the year 1936.

## BEAUTIFUL OHIO INTRODUCED FALL OF 1935

Introduced by Heberling's Gladiolus, Inc., Easton, Ill.

Originated by Mr. J. A. Hullibarger, Route 1, Box 203, Bowling Green, Ohio.

The Originator, Mr. Hullibarger, preferred the name Miss Ohio, but accepted our suggestion of Beautiful Ohio.

The spikes are thirty-six to forty-six inches tall. The flower head is sixteen to eighteen inches long, with sixteen to twenty open flowers and buds to the spike. The flower head and placement are of the Minuet type. The spike is straight and strong and does not crook in heat.

The substance is as heavy or heavier than Minuet and florets are set close to the spike and flowers open wide.

The color is best described as Tyrian Pink and is almost a self except for a slightly lighter rib in the center of each petal and a touch of Tyrian Rose in the throat. For those who do not have a color chart I would say it is a beautiful light rose with a tint of lavender. The color is unusually clear.

Beautiful Ohio has been bred where our summer days are hot and the spike and flower will stand an unusual amount of heat without burning. Spikes did not burn in the summers of 1934 and 1936 which were the hottest on record.

Beautiful Ohio produces bulblets in about the same quantities as Minuet and about the same size. They germinate quite well, much better than Minuet bulblets. Without special care those we planted this season germinated from seventy-five to eighty per cent.

In the spring of 1935 we purchased one-half of the stock of Beautiful Ohio and since then have grown in in our own gardens. The originator, Mr. Hullibarger, is owner of the other half and is offering his stock at the same prices as quoted below.

#### **AWARDS**

Beautiful Ohio was awarded the Blue Ribbon in the three spike class at the New England Gladiolus Show at Boston in 1936. Beautiful Ohio in mixed basket was awarded gold medal at the same show.

At Beverly, Mass., in the twelve vase class of three spikes each, Beautiful Ohio filled one of the twelve vases in the set receiving the Blue Ribbon.

At Springfield, Illinois, August 22, 1936, Beautiful Ohio received four Blue Ribbons as follows:—

FIRST Single Spike Class.      FIRST In Twenty-Five Spike Basket Class.  
FIRST Three Spike Class.      FIRST In Mantel Decoration Class.

#### **REPORT FROM E. A. LINS, TRIAL GARDENS, SPRING GREEN, WIS.**

September 12, 1936.

"Beautiful Ohio planted May 21st, bloomed August 17th. Forty-eight inches or more tall, carried twenty (20) buds  $4\frac{3}{4}$  to 5 inches when open. Opens six with six buds in color. Spike always straight, medium weight, medium upright healthy foliage. Placement very good and very good facing. Blooms of good substance. Very good pink. Considering the drought and 114 degree heat we had in the shade I feel this performed exceptionally well."

SIGNED: E. A. Lins, Service Officer.

### **GOLDEN LANCER OUR 1936 INTRODUCTION**

A large Pinard Yellow, with short delicate rose red lines in throat, producing spikes from 40 to 48 inches tall. The florets measure from  $4\frac{1}{2}$  to 5 inches in size with four to six open. The spikes carry from 18 to 21 buds and flowers which are well placed on a long flower head. Golden Lancer produced the largest florets of any yellow in our garden the past season. It is a strong, sturdy plant with healthy foliage and produces clean healthy bulbs. Both bulbs and bulblets possess great vitality and practically all of the bulblets germinate. It produces many large bulblets and many of them, if planted early, will make bulbs of size one and two the first season under favorable conditions. I regard this variety as a very outstanding commercial yellow. A few of these bulbs were sent to customers last season for trial under the name of Seedling No. 101 and we have some very good reports from them.

**REPORTS ON "GOLDEN LANCER"**

Spring Green, Wisconsin, September 25, 1936.

Dear Sir:

"Your seedling 101, Golden Lancer, planted May 7. Bloomed August 15. Fifty-six inches tall, 20 buds, 4 $\frac{3}{4}$ -inch flower with up to six open. This spike was damaged in an effort to have it at display at the Wisconsin State Show. Pinard Yellow with rose red lines in throat. You can feel sure that we considered this very good, as we take no seedlings to the show unless exceptional. Very straight spike and healthy in all ways. Spacing and facing exceptionally good."

Sincerely yours,

E. A. Lins, Service Officer, Legion Trial Gardens.  
Burlington, Iowa, August 3, 1936

Dear Sir:

"You sent me two small bulbs of Seedling 101. Say, it is great! The best yellow for commercial use I have ever seen."

Signed: A. N. Jarvis, 1124 Leebrick Street.

## IRRIGATION SUCCESSFUL WITH GLADIOLUS

### EASTON GROWER HAS TWENTY ACRES OF CHOICE FLOWERS

A visit to J. H. Heberling's gladiolus field at Easton is of unusual interest. Regardless of the hot, dry, and parched season there are 20 acres of beautiful green and blooming spikes. Thousands of beautiful gladiolus spikes have been shipped from the Mason City express office to every part of the state and even beyond.

#### HAS IRRIGATION SYSTEM

One naturally asks how was this remarkable crop secured in this year of heat and drought. Irrigation answers the whole question. The 20-acre tract adjoins Easton on the southeast being easily accessible to the town.

Mr. Heberling has established a complete system of overhead irrigation which embraces the entire 20-acre tract. About half of this field is sprayed from overhead pipes and this section can all be watered in a period of 48 hours. These

pipes are placed at a height of from five to six feet and are properly distanced to cover all the ground between each two rows of pipes. Water is forced through apertures in the pipes by means of a gasoline force pump. The other half of the field is watered by two immense oscillating sprayers which may be moved from place to place over the field. They are connected with the main pumping station with movable pipes. These immense sprays move back and forth with a heavy spray of water which will cover a tract of ground 60 by 120 feet. When an inch of water has been sprayed the sprayers are moved on to the next 120 feet until this entire half is watered.

Mr. Heberling has an inexhaustible water supply from two wells only 50 feet deep. The irrigating pumps have been operated 24 hours a day all summer and 90,000 gallons of water have been pumped on to the field every 24 hours.

## ACHIEVEMENT

Prior to 1933 Heberling's Gladiolus had been exhibited at two American Gladiolus Society Shows and four Illinois Gladiolus Society Shows. In these six exhibitions they were awarded 13 silver cups, one silver pitcher, eight gold medals, 17 silver medals, and 18 bronze medals. They won ten purple ribbons, 109 blue ribbons, 73 red ribbons, and 43 white ribbons.

At the Indiana Gladiolus Society Show, 1933, at LaPorte, Indiana, in which the American and Michigan Gladiolus Societies participated, Heberling's Gladiolus won the Konyenburg and Mark Challenge Cup for the third time in five years—thereby gaining permanent possession of it. This trophy was awarded for the best display of varieties originated by Wilhelm Pfitzer, Ltd., of whose varieties we have one of the finest collections in America.

At the Illinois Gladiolus Society Show at A Century of Progress Exposition, Chicago, August 12-14, 1933, Heberling's Gladiolus were awarded A Century of Progress Gold Medal for the best display of gladiolus arranged for educational and artistic effect. They were awarded the I. G. S. Challenge Trophy for the best basket of gladiolus in the Commercial Division, and they were awarded the American Gladiolus Society Gold Achievement Medal for winning the most points in the First or Commercial Division.

The Illinois Gladiolus Society on August 24, 1935, awarded to Heberling's Gladiolus Blue Ribbon and cash award for best large commercial display at Canton, Illinois. Display occupied five hundred square feet.

The Illinois Gladiolus Society on August 22, 1936, awarded to Heberling's Gladiolus Inc., 44 Blue Ribbons, 16 Red Ribbons, and 12 White Ribbons. These awards included First Award for the 300 square feet, 150 square feet, and 100 square feet, all commercial displays. Also First for the 100 square foot Island Display. Special Award was made to the Island Display for being the most outstanding. Our introduction, Beautiful Ohio, received four First Awards in its color class.
